

## Seminar on Agricultural Industry Development for Developing Countries

Program name	Seminar on Agricultural Industry Development for Developing Countries		
Organized by	International Exchange Center of Yangling Agriculture Hi-tech Industries Demonstration Zone		
Time	2026-05-21 -- 2026-06-03	Language used	English
Countries invited	Developing Countries		
Planned number of participants	20		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; Under 50 for officials at director general's level.	
	Health condition	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant.	
	Language competence	Capable of listening, speaking, reading and writing in English during the training	
	others	Family members or friends shall not follow	
Venue	Yangling Demonstration Zone, Shaanxi Province	Weather conditions	20°C~33°C
Cities to be visited	Xi'an City, Shaanxi Province Beijing City	Weather conditions	Xi'an City, Shaanxi Province:20°C~33°C Beijing City:16°C~31°C
Remarks	<p>1. Please prepare the discussion materials related to the theme of the program;</p> <p>2. Please wear formal or traditional ethnic clothing or working uniform to formal activities;</p> <p>3. Please carry a small amount of common medications;</p> <p>4. The Chinese side will not provide computers, please bring your own if necessary;</p> <p>5. It is generally prohibited to alter international flight tickets personally. If necessary, please consult the Economic and Commercial Office of the Chinese embassy in your country to handle the process of flight ticket change;</p> <p>6. If unexpected circumstances prevent your timely departure, or if your connecting flight is delayed, please contact the Economic and Commercial Office or the contact person of the organizer in a timely manner and inform them of the latest flight information for pick - up arrangements;</p> <p>7. When transferring flights, please confirm whether you need to recheck your luggage;</p> <p>8. After collecting your luggage upon landing, please wait patiently at the international arrival exit or domestic arrival exit. Our staff will pick you up with a sign bearing the name of the organizer. If the wait exceeds 15 minutes, you can contact with the contact person of the organizer by phone;</p> <p>9. It is recommended to download and register WECHAT in advance.</p> <p>10.City visits and inspections may be adjusted as deemed appropriate.</p>

	Office phone	0086-29-87036061(Ms.XU)
	Mobile phone	0086-18729368002(Ms.XU)
	Fax	0086-2987036061(Ms.XU)
	E-mail	iec2014@163.com(Ms.XU)
	Address	No.6 Xinqiao North Road, Yangling Demonstration Zone, Shaanxi Province
About the Organizer	<p>Yangling Demonstration Zone is located in central Shaanxi Province, about 80 kilometers from Xi'an City and approximately a one-hour drive from Xi'an Xianyang International Airport. Established in 1997, it is China's first national-level agricultural hi-tech industry demonstration zone. It serves as the CHINA AID Dryland Farming Technology Training Center designated by the Ministry of Commerce of China, as well as the SCO Demonstration Base for Agricultural Technology Exchange and Training, and the China-Africa Joint Center for Modern Agrotechnology Exchange, Demonstration and Training (Shaanxi). It is one of the regions with the richest agricultural science and education resources in China, housing over 110 provincial and ministerial-level research platforms, including the Institute of Soil and Water Conservation, Chinese Academy of Sciences, and the China Arid Region Water-Saving Agriculture Research Institute, covering more than 70 disciplines in agriculture, forestry, and water resources, and employing over 7,000 professionals in agricultural science and education.</p> <p>Since 2005, the Yangling Demonstration Zone has hosted more than 190 sessions of foreign aid training programs, with over 5,600 participants from more than 130 countries . Leveraging the rich scientific and educational resources of institutions within the province, such as Northwest A&amp;F University, Xi'an Jiaotong University, the Institute of Soil and Water Conservation (Chinese Academy of Sciences &amp; Ministry of Water Resources), and the National Beef Cattle Improvement Center, the Center has developed ten specialized training areas, including agricultural economic management, facility agriculture, water-saving irrigation, soil and water conservation, animal husbandry, e-commerce, public infrastructure construction, governance capacity building, and poverty reduction cooperation. It has assembled a team of over 150 part-time and full-time experts in fields like modern agriculture, animal husbandry, and e-commerce, and established more than 20 training bases in areas such as economic forests and fruits, facility agriculture, and crop cultivation. The Center has a solid foundation and extensive experience in hosting training programs in agriculture and related fields.</p>	
Training content	<p>1. Main contents</p> <p>(1) China's International Agricultural Cooperation and Practice: an introduction to the cooperation modes between china and relevant countries in the agricultural field.</p> <p>(2) Construction Paths of Agricultural Industrial Chain and Value Chain: an introduction to the basic structure of the integrated agricultural industrial chain and the collaborative modes of all links from planting, processing and circulation to sales.</p> <p>(3) Policies and Practices of Agricultural Product E-Commerce: an introduction to the development history and current situation of china's agricultural product e-commerce, its relevant policies and platform construction, as well as an analysis of its development modes and typical cases.</p> <p>(4) Agricultural Waste Management and the Green and Low-Carbon Transformation of the Integrated Industrial Chain: an introduction to the concept and classification of agricultural waste, agricultural waste management technologies, as well as the policies and practices for the green and low-carbon transformation of the integrated agricultural industrial chain.</p> <p>(5) Development of New-Type Agricultural Business Entities Represented by Farmers' Cooperatives: an introduction to the important role of farmers' cooperatives in promoting agricultural industrialization and improving agricultural production efficiency and resource</p>	

utilization rate.

(6) Operation and Management of Farmers' Specialized Cooperatives: an introduction to typical development cases of farmers' cooperatives and an analysis of the successful experience of planting and breeding specialized cooperatives in production, brand building, industrial chain extension, operation and management.

(7) Practice of Agricultural Product Quality and Safety Management: an introduction to the international and chinese agricultural product quality and safety standard systems, inspection and testing systems and certification systems, as well as an analysis of the opportunities and challenges faced by the agricultural product quality and safety management system.

(8) Agricultural Product Brand Operation and Industrial Development: an exploration of the characteristics and advantages of agricultural product brand building in different countries and regions, as well as an analysis of the key links of brand operation and the paths of industrial extension

(9) Theories and Practices of Sustainable Development of the Agricultural Industry: an introduction to the core concepts and global trends of agricultural sustainable development, as well as an analysis of the important role of agricultural industrial sustainable development in addressing climate change, resource shortage and ecological degradation.

## 2. Arrangements for the Study Tour (The Visit City May Be Adjusted According to the Actual Situation)

(1) It is proposed to arrange for the participants to visit the Intelligent Agriculture Demonstration Park in Yangling Demonstration Zone, Shaanxi Province, to learn the operation and management technologies of intelligent equipment for agricultural modernization.

(2) Participants are scheduled to visit the Kiwifruit International Innovation Park in Yangling Demonstration Zone, Shaanxi Province, to learn the experience of boosting the development of rural collective economy through the construction of agricultural industrial chain.

(3) Participants are scheduled to conduct an inspection and exchange visit to Aiju Grain and Oil Industrial Group Co., Ltd. in Xi'an, Shaanxi Province, to learn about the major practices in the modern processing and sales of agricultural products.

(4) Participants are scheduled to visit the Beijing Agricultural Exhibition Center to understand the development course of China's modern agricultural industry.

## 3. About the lecturers

(1) Zhang Han: Vice Dean of the School of Economics and Management, Northwest A&F University, Professor and PhD Supervisor, his main research including Agricultural and forestry economy and policy, agricultural international cooperation under the Belt and Road Initiative.

(2) Chen Haibin: Professor and PhD Supervisor, Department of Agricultural Economics, School of Economics and Management, Northwest A&F University, his main research including Agricultural resource economy and environmental management, rural regional development

(3) Qiu Lu: Associate Professor and Master Supervisor, School of Economics and Management, Northwest A&F University, her main research interests: Agricultural economics and management.

(4) Wang Hongmei: Vice Dean of the School of Economics and Management, Northwest A&F University, professor and PhD Supervisor, her main research is about Rural economic development.

(5) Ren Yanjun: Professor and PhD Supervisor, School of Economics and Management, Northwest A&F University. Member of the Shaanxi Provincial High-Level Young Talent Program, Leader of the Young Innovation Team of Shaanxi Universities.

## 4. Others

To facilitate communication with Chinese experts, please prepare relevant materials related to the theme of the study, such as:(a) The current development status and existing problems in the field of governance capability and social development. (b) The basis for cooperation with China.

## Seminar on Digital Economy and Poverty Reduction for Developing Countries

Program name	Seminar on Digital Economy and Poverty Reduction for Developing Countries		
Organized by	Free Trade Development Board of Zhejiang Province (Secretariat of China Center for Cooperation on Special Economic Zones in BRICS Countries)		
Time	2026-05-21 -- 2026-06-10	Language used	English
Countries invited	Seminar on Digital Economy and Poverty Reduction for Developing Countries		
Planned number of participants	25		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; Under 50 for officials at director general's level.	
	Health condition	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or not pregnant.

	Address	4th Floor, South Building of Zhejiang Economic and Trade Building, 468 Yan'an Road, Gongshu District, Hangzhou City, Zhejiang Province
About the Organizer	<p>Free Trade Development Board of Zhejiang Province (Secretariat of China Center for Cooperation on Special Economic Zones in BRICS Countries), formerly known as the Training Center of Department of Commerce of Zhejiang Province, is a public institution affiliated with the Department of Commerce of Zhejiang Province. It is responsible for training in the business sector across the province and supporting the development of pilot free trade zones. Since undertaking foreign aid training programs in 2012, the Board has organized a total of 109 training sessions, covering a total of 3265 participants from 99 countries and 2 international organizations. Training topics include international economic and trade cooperation, business related themes, human resource management, tourism and hotel management, sports development, etc. Participants include government officials and technical personnel at various levels. In addition, the Board also organizes annual training for provincial-level directors of commerce and investment promotion, as well as topics such as pilot free trade zone development, development zone construction, e-commerce and cross-border e-commerce. It also provides business certification service to the public. Over 10000 professionals have been certified through the Board in roles such as e-commerce specialists, document clerks, and logistics professionals.</p>	
Training content	<p>This seminar implements the international cooperation philosophy of "Teaching people to fish rather than giving them fish", closely follows the core essence of the Belt and Road Initiative and the Global Development Initiative, focuses on practical cooperation in digital industry cultivation, digital rural development and poverty reduction in developing countries, and contributes to building a closer global community with a shared future for development.</p> <p>Through on-site lectures, field visits, symposiums and other methods, this program elaborates on China's national conditions, practices in poverty alleviation and common prosperity, and digital rural development, Zhejiang's "Project of Thousand Villages Demonstration and Ten Thousand Villages Improvement", rural digital infrastructure construction, poverty reduction via live-streaming e-commerce, common prosperity workshop model, digital transformation of small and medium-sized manufacturing enterprises, and inclusive finance supporting agriculture, covering core theories and practical experience in relevant fields. It also arranges field visits to learn about the digital transformation path of Nanfang Pump Industry, Wuzhen's "Internet + Cultural Tourism" development model, and benchmark enterprises such as Alibaba, Dahua Technology or Hikvision to observe digital technology-enabled poverty reduction practices. Visits include Deqing City, Yiwu City, Haining City in Huzhou of Zhejiang Province and Shanghai City. Meanwhile, symposiums on localized paths of digital poverty reduction in developing countries and sharing of Zhejiang's experience will be held. Experts from competent commercial authorities of Zhejiang Province, renowned professors from universities and senior executives of typical enterprises will be invited to deliver on-site lectures. The main training courses and content are briefly introduced as follows (cities and sites for field visits are subject to adjustment based on actual conditions).</p>	

1. Main training courses:
  - (1) Overview of China's National Conditions
  - (2) From Poverty Alleviation to Common Prosperity: China's Practices and Experience
  - (3) Zhejiang's Practices in China's "Internet-enabled Poverty Alleviation" and "Digital Villages"
  - (4) Digital Upgrade of Zhejiang's "Project of Thousand Villages Demonstration and Ten Thousand Villages Improvement" and Practices of Rural Common Prosperity and Poverty Reduction
  - (5) Live-streaming E-commerce and County Economy: Sharing of the "Industrial Belt + Live-streaming Common Prosperity Workshop" Model
  - (6) Bridging the Digital Divide: Rural 5G Coverage and Inclusive Construction of "Last Mile" Logistics Infrastructure
  - (7) From Block Economy to Digital Cluster: Digital Transformation and Employment Creation of Small and Medium-sized Enterprises in Zhejiang's Traditional Industrial Belts
  - (8) Application of Smart Agriculture Technology and Low-cost Cultivation and Breeding for Efficiency Improvement and Farmers' Income Increase
  - (9) Construction of Rural E-commerce System and Online Outbound and Inbound of Agricultural Products to Support Farmers' Income Increase
  - (10) Integrated Development of Agriculture, Culture and Tourism: Digital Technology Activates New Forms of Rural Tourism
  - (11) Ant Group's "Inclusive Finance + Smart County" to Help Farmers Establish Digital Credit
  - (12) AI and Digital Twin Technology to Help Traditional Industries Optimize Costs and Improve Efficiency
  - (13) Industrial Incubation of Taobao Villages and Full-chain Operation of Live-streaming E-commerce to Support Agriculture
  - (14) Practical Operation of Short-video Live-streaming to Support Agriculture and Cultivation of Local New Farmers
  
2. On-site Teaching and Case Studies:
  - (1) "Low-cost and High-efficiency Path" for Digital Transformation of Small and Medium-sized Manufacturing Enterprises — Practical Exploration of Nanfang Pump Industry from Traditional Production to Smart Manufacturing
  - (2) Digitalization of Rural Tourism: A Case Study of Wuzhen's "Internet + Culture and Tourism" Driving Regional Economy
  - (3) Case Sharing of China's Aid to Africa Digital Agriculture Projects — "Beidou + UAV" China's Smart Agriculture Helps African Agricultural Modernization
  
3. Field Visits:
  - (1) Visit Deqing County, Huzhou City to study digital governance and future rural construction
  - (2) Visit Alibaba Group to study innovative applications of digital technologies such as smart logistics, cloud computing and big data
  - (3) Visit Yiwu International Trade City, the "world's largest small commodity wholesale market", to study digital trade, cross-border e-commerce supply chain and market digital transformation
  - (4) Visit Yucun Village, Anji County, the birthplace of "Lucid Waters and Lush Mountains are Invaluable Assets", to study digital poverty reduction practices
  - (5) Visit Lizu Village under Zhejiang's "Project of Thousand Villages Demonstration and Ten Thousand Villages Improvement" to study digital economy empowering rural characteristic culture and tourism to achieve poverty reduction and development
  - (6) Visit Hikvision and Dahua Technology to study the application of digital technology in smart cities, agricultural testing and other fields
  - (7) Visit the Government Service Center to study the "One Visit at Most" reform
  - (8) Visit Taoyuan Village, Haining City, a provincial-level e-commerce live-streaming "Common Prosperity Workshop", to study the new agricultural ecological model
  - (9) Visit Hangzhou Cross-border E-commerce Comprehensive Pilot Zone to study cross-border e-commerce empowering the globalization of small and medium-sized enterprises

(10) Visit Hangzhou Dream Town to study digital entrepreneurship incubation and youth employment models

4. Symposiums:

(1) Seminar on Paths to Break Through Bottlenecks and Practical Implementation of Rural Digital Infrastructure in Developing Countries

(2) Localization Paths of E-commerce Poverty Alleviation: Exploration of Platform Empowerment and Government Coordination Paths

(3) Seminar on Sustainable Operation and Experience Sharing of Digital Poverty Reduction Projects under the Framework of South-South Cooperation

5. Cultural experiences:

Through various cultural experience activities and field trips, profound experiences and photo collections will be left for the participants.

(1) Visit West Lake or Liangzhu Cultural Site in Hangzhou to experience the charm of world cultural heritage

(2) Walk along the Bund in Shanghai to experience China's international urban development and architectural complex culture

(3) Visit the Exhibition Hall of Zhejiang Disabled Persons' Federation to learn about the development stories of disabled persons in Zhejiang and experience Chinese characteristic intangible cultural heritage paper-cutting

(4) Experience the agricultural culture of West Lake Longjing Tea Garden and taste Chinese tea gifts

## Training Program on Edible Mushroom Technology for Developing Countries

Program name	Training Program on Edible Mushroom Technology for Developing Countries		
Organized by	Fujian Provincial United Nations SSC Network Demonstration Base		
Time	2026-05-27 -- 2026-06-09	Language used	English
Countries invited	developing countries		
Planned number of participants	25		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; Under 50 for officials at director general's level.	
	Health condition	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant.	
	Language competence	Capable of listening, speaking, reading and writing in English to the extent satisfying the needs for training.	
	others	Family members or friends shall not follow	
Venue	Fuzhou City, Fujian Province	Weather conditions	24°C~31°C
Cities to be visited	Gutian County, Ningde City, Fujian Province Pingnan County, Ningde City, Fujian Province	Weather conditions	Gutian County, Ningde City:20°C~27°C Pingnan County, Ningde City:20°C~27°C
Remarks	<ol style="list-style-type: none"> <li>1. Please prepare the discussion materials related to the theme of the program;</li> <li>2. Please wear formal or traditional ethnic clothing or working uniform to formal activities;</li> <li>3. Please carry a small amount of common medications;</li> <li>4. 	E-mail	fjtcdc@126.com(Ms.Zheng), fjtcdc@126.com(Ms.Cao)
	Address	Building 1, High-tech Startup Park, No. 611 Gongye Road, Fuzhou City, Fujian Province
About the Organizer	<p>Located in Fuzhou City, Fujian Province, Fujian Provincial United Nations SSC Network Demonstration Base is engaged in following work:  Fulfilling China's obligations in multilateral and bilateral foreign aid, undertaking training programs including official seminars and practical technical training programs organized by the Chinese Government for developing countries;  Cultivating technical and managerial talents;  Implementing South-South Cooperation projects related to organizations of United Nations.</p> <p>Since its establishment, the base has conducted 44 China aid human resource trainings in the fields of edible fungi, flowers, landscape gardening, automotive technology, shipping and maritime affairs. We have trained over 1,100 management and technical personnel from more than 100 countries, effectively promoting local employment and injecting new vitality into the cooperation of science and technology as well as economy and trade. Through foreign aid training, we have not only enhanced the international competitiveness of Fujian's advantageous and applicable industries but also made positive contributions to the international development of these industries.</p>	
Training content	<p>I. Main training content  The main content is as follows:  Basic Knowledge of Edible Fungi Biology:  Introducing the physiological and biochemical characteristics and life cycle of macrofungi, laying a foundation for cultivation techniques.  Spawn Making: Spawn making, propagation and preservation of edible fungi  Cultivation of <i>Lentinus edodes</i> (Shiitake): Its cultivation technologies and models  Cultivation of <i>Pleurotus ostreatus</i> (Oyster Mushroom): Its cultivation technologies and models  Cultivation of <i>Agaricus bisporus</i> (Button Mushroom): Its cultivation technologies and models  Cultivation of <i>Volvariella volvacea</i> (Straw Mushroom): Its cultivation technologies and models  Control of Pest and Disease: Identification of pest and disease and measures of their control  Processing Technology of Edible Fungi: Introducing assorted processing technologies for different edible and medical fungi</p> <p>II. Study tour arrangements  Investigate on-site cultivation of different mushroom species to intensify the grasp of the cultivation technologies; exchange with mushroom experts and enterprises to further understand the development pattern of mushroom industry.</p> <p>III. About the main lecturers  Liao Jianhua Researcher Edible Fungi Research Institute of Fujian Academy of Agricultural Sciences</p>	

Chen Junchen    Researcher    Institute of Food Science and Technology of Fujian Academy of Agricultural Sciences Zhang Weirui    Professor    Ningde Normal University Ruan Yi         Director     Kexing Edible Fungi Research Institute
