

JICA Knowledge Co-Creation Program for Long Term Participants (JICA Development Studies Program)

General Information on SDGs Global Leader Enrolment 2027 Autumn (South Asia)

「SDGs Global Leader (2027 年秋入学)」

This handout provides an overview of the SDGs Global Leader Program, which is one of Japan International Cooperation Agency (JICA)'s Knowledge Co-Creation Program (Long-Term). The program will be implemented as part of the Official Development Assistance (ODA) of the Government of Japan based on bilateral agreement between respective governments.

The objective of the Knowledge Co-Creation Program (Long-Term) is to offer opportunities to people from developing countries to study at Japanese universities and to help them build their network of people. This is intended to support the human resource development plans of the governments of developing countries and Japan, and eventually to expand and strengthen bilateral ties between the developing countries and Japan.

0. Background

What is JICA Knowledge Co-Creation Program (KCCP)

The Japanese Cabinet revised the Development Cooperation Charter in June 2023, which stated, “In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.” JICA believes that this ‘Knowledge Co-Creation Program’ will serve as a foundation of mutual learning process.

What is JICA Development Studies Program (JICA-DSP)

Japan is the very first country and still is one of the very few countries that has modernized from a non-Western background to establish a free, democratic, prosperous, and peace-loving nation based on the rule of law, without losing much of its tradition and identity. With such belief, JICA invites future leaders from partner countries to Japan under KCCP, and offers them opportunity to learn about Japan's unique modernization and development experiences. This special program is called, JICA Development Studies Program (JICA-DSP).

JICA-DSP is provided to all participants of KCCP during their stay in Japan. JICA will offer participants various opportunities through which they can learn about Japan's modernization and development experiences.

1. Overview

Until now, JICA has provided training programs as a part of technical cooperation in various fields. In order to strengthen networks between the target countries in respective fields, JICA has been offering long-term training programs to foster young or middle-career government officials, academic researchers and other key leading human resources. These individuals are expected to contribute to the socio-economic development of their respective countries, and to play an active role in influencing policy-making processes in the near future.

The SDGs Global Leader Program was established in Japanese Fiscal Year (JFY) 2019 under the framework of JICA Development Studies Program (JICA-DSP) for the purpose of promoting the cooperation for sustainable development in the world.

This program will offer participants an opportunity to pursue a Master's or Ph.D. degree at a Japanese university, while also participating in specialized courses on Japan's developmental experience through the JICA-DSP. In addition, internships may be arranged as needed to further enhance participants' learning experience.

2. Objectives

- (1) To develop high level human resources who are capable of contributing to effective policy formulation and implementation for tackling developmental issues in their respective fields.
- (2) To establish and strengthen medium and long-term partnership between partner countries and Japan.

3. Course Outline

The course consists of the acceptance of participants from 6 countries from South Asia.

South Asia	Bangladesh, Bhutan, Maldives, Nepal, Pakistan, Sri Lanka
------------	--

This handout provides information on long-term programs including Master's degree programs and Ph.D. programs.

Applicants may select the university to which they wish to apply, from among the partner universities which have concluded agreements with JICA to accept participants on the condition that the applicants successfully pass the entrance examination of the selected university. Detailed information on these partner universities will be provided separately.

Proposed research topics should focus on areas that contribute to government policies on sustainable development (Examples: Administration and public policy, finance, public finance management, international politics/diplomacy, regional research, business, international trade/investment, disaster risk reduction, maritime issues etc.)

In addition to curriculums of the Master's and Ph.D. programs, activities such as short-term programs (e.g. Understanding the Japanese Development Experience¹), will be planned in order to enrich participants' academic and personal experiences during their studies at Japanese universities.

4. Duration

In principle, 2 years for Master's program and 3 years for Ph.D. program (depending on the program offered by universities)².

Master: from September 2027 to September 2029 (2 years)

Ph.D.: from September 2027 to September 2030 (3 years)

5. Number of Participants

Country Name	Number
South Asia	11

6. Language to be used in this Program
